Tanzania : P&A of Mohoro-1 wells

Pre-test work continuing on Mafia Deep ST-1

Tanzania – Bigwa – Rufiji – Mafia License (Maurel & Prom operator, 60%)

The Mohoro-1 well drilled in Tanzania under the Bigwa Rufija Mafia License (M&P 60%) reached a depth of 3,200 m. The drilling encountered a column of water impregnated with hydrocarbon gas but in non-commercial quantities. However, this result confirms the existence of an gas system in the région.

Work to commence testing the Mafia Deep ST-1 well is still underway.

The Group will inform the market as soon as it begins testing.

This document may contain forward-looking statements regarding the financial position, results, business, and industrial strategy of Maurel & Prom. By nature, forward-looking statements contain risks and uncertainties to the extent that they are based on events or circumstances that may or may not happen in the future. These projections are based on assumptions we believe to be reasonable, but which may prove to be incorrect and which depend on a number of risk factors, such as fluctuations in crude oil prices, changes in exchange rates, uncertainties related to the valuation of our oil reserves, actual rates of oil production and the related costs, operational problems, political stability, legislative or regulatory reforms, or even wars, terrorism or sabotage.

Maurel & Prom is listed for trading on Euronext Paris – Compartment A - CAC mid 100 Index
